

Now Available from Hunt & Sons
EnviroCleanse A

An Organic, Non-Toxic, Bio-Degradable Disinfectant

Hunt & Sons, Inc. now offers Envirocleanse A to help fight the spread of COVID-19/ Coronavirus*, H1N1, Norovirus, Salmonella, and many other diseases, bacteria and viruses.

It does not require PPE to apply like other harsh chemicals.

Envirocleanse A is registered with the EPA ID # 85134-1, organic certified and safe to use on all hard-non-porous surfaces. Unlike other disinfectants, this product is ready to use right out of the bottle and does not require water dilution.

Below are just some of the disinfecting applications to apply Envirocleanse A to help prevent the spread of disease, bacteria and virus:

- Equipment and vehicles
- Restaurants and food trucks
- Senior facilities and nursing homes
- Hospitals and care facilities
- Grocery and food marts
- Public use areas
- Offices and workspaces
- Gyms and yoga studios
- Daycare facilities
- Schools and buses
- Public Transit
- Farm Equipment
- High touch hard surfaces

And any other use that requires a disinfectant that is environmentally friendly, effective and simple to apply. It requires no wiping. Just spray and leave to dry.

Envirocleanse A can be used as part of your COVID-19 mitigation plan

Envirocleanse A comes in 275-gallon bulk totes and 55-gallon drums for high volume users. As well as 5-gallon pails, one-gallon jugs and 32 oz spray bottles. Jugs and bottles are sold by the case.

Hunt & Sons is offering a "Starter Kit". This kit consists of a roller base dolly for drums that includes a hand pump to transfer Envirocleanse A from the drum into spray bottles.

Contact Hunt & Sons today for more information on Envirocleanse A!

*Meets the EPA's criteria for use against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19. Follow the disinfection directions and preparation for norovirus.
